

WE Schools

Empowering a generation of young people through service-learning

WE Schools is reigniting the fundamental purpose of education: moving students to want to learn, preparing them with the life skills to better the world and empowering them to forge their own paths to success.

WE Schools prepares students for success in life. Through educational resources, students further their curricular learning and develop the life skills for success. Young people are challenged to research and make an impact on at least one local and one global issue that sparks their passion.

By coordinating their service projects, students learn skills in leadership, communication and project management. These are 21st century life skills that are often missed by traditional models of education.

WE Schools resources are free to schools and always evolving to keep the learning materials fresh and relevant. For teachers it revitalizes a class, the curriculum and everyone's passion. The WE Schools program reminds everyone what classrooms are supposed to be: vibrant, bubbling incubators that inspire tomorrow's best leaders.

WE Schools is part of WE

The unique family of organizations empowers people at home, around the world and through a social enterprise. WE Charity empowers change with resources that create sustainable impact through domestic programs like WE Schools and internationally through WE Villages.
