

Heading 1: Workshop Video Transcript

(Video plays)

[Background music playing]

Description: An animated WE logo on a white background

Description: Thomas, WE employee

Thomas: WE has partnered with the Ministry for Seniors and Accessibility through the government of Ontario

Description: Students participating in workshop

Thomas: To build out workshops that are focused on providing a safe space to talk about inclusivity and accessibility and people with disabilities. The goal is to make Ontario more accessible and inclusive.

Description: Student

Student: As we would go along the timeline and see more and more inclusion for the disabled community, I feel like a lot of this stuff should have happened sooner. That surprised me that it took so long for people to realize that.

Description: Teacher

Teacher: The ownership has to be on them. If it is on them and they have support from us, they will slowly make greater changes within their friend groups, within their homes, within their school community. Workshops like this allow to have the opportunities to be exposed to even more information.

Description: Joel, Paralympian

Paralympian: It's really up to you guys to create positive change to create an accessible Ontario

Description: Joel navigating his workplace in a wheelchair with co-worker

Paralympian: It's going to take innovative ideas, disruptive ideas to create positive change so that all Ontarians who might have disabilities can get around and live in an accessible and inclusive environment.

Description: The WE logo on a white background, #AccessTogether
